PIRUE

PIRUE

doors inspired by movement

The PIRUE door is a combination of modern design, precise workmanship, and unparalleled functionality. Each element reflects movement, which is a symbol of energy, while at the same time expressing durability. Designed for the most demanding projects, it is the perfect choice for those who appreciate elegance, good design, and innovative solutions.

PIRUE

**safe
and reliable**

Thermal insulation
from 0.8 W/m²K

**Modern
design**

Watertightness
4A

The PIRUE door effectively reduces noise from the outside, improving sound insulation indoors. It is resistant to weather conditions, such as wind, water, and sun, and guarantees exceptional thermal performance.

PIRUE

Dimensions

The PIRUE doors are tailored to your expectations in every millimetre: the maximum dimensions are 1,850 mm x 3,100 mm for inswing doors, and 1,850 mm x 2,550 mm for outswing doors.

Weight

Without limits! The possibility to make a leaf weighing up to 500 kg enables the execution of even the most daring designs.

Customization

Patterns, colours, finishes, and accessories – express yourself by creating a space that perfectly matches your style.

Technology

Advanced technologies guarantee exceptional security as standard. Together with access control systems, they protect your home at the highest level.

What makes the **PIRUE door** stand out?

Class: **luxury**

2

year **warranty**

The design of the PIRUE door is based on a vertical axis. As a result, it is distinguished by modern design and exceptional functionality, constituting a harmonious combination of aesthetics and comfort of use.

Light movement

- a better distribution of the door's weight makes it work with remarkable smoothness, so that it is extremely easy to open and close.

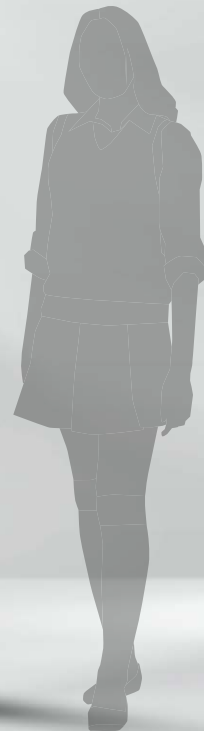

Minimalist design

- the absence of traditional hinges on the sides makes it possible for the door to be made of one large panel for a perfect visual effect.

Smooth opening

- the door leaf is mounted on special hinges, located on the top and bottom frame, which enables rotation around the vertical axis and guarantees greater stability

A collection of external aluminium doors, which fuses great style and excellent technical parameters. A solution perfect in every detail. PIRUE equals safety, comfort, appeal, durability, and almost endless customization possibilities.

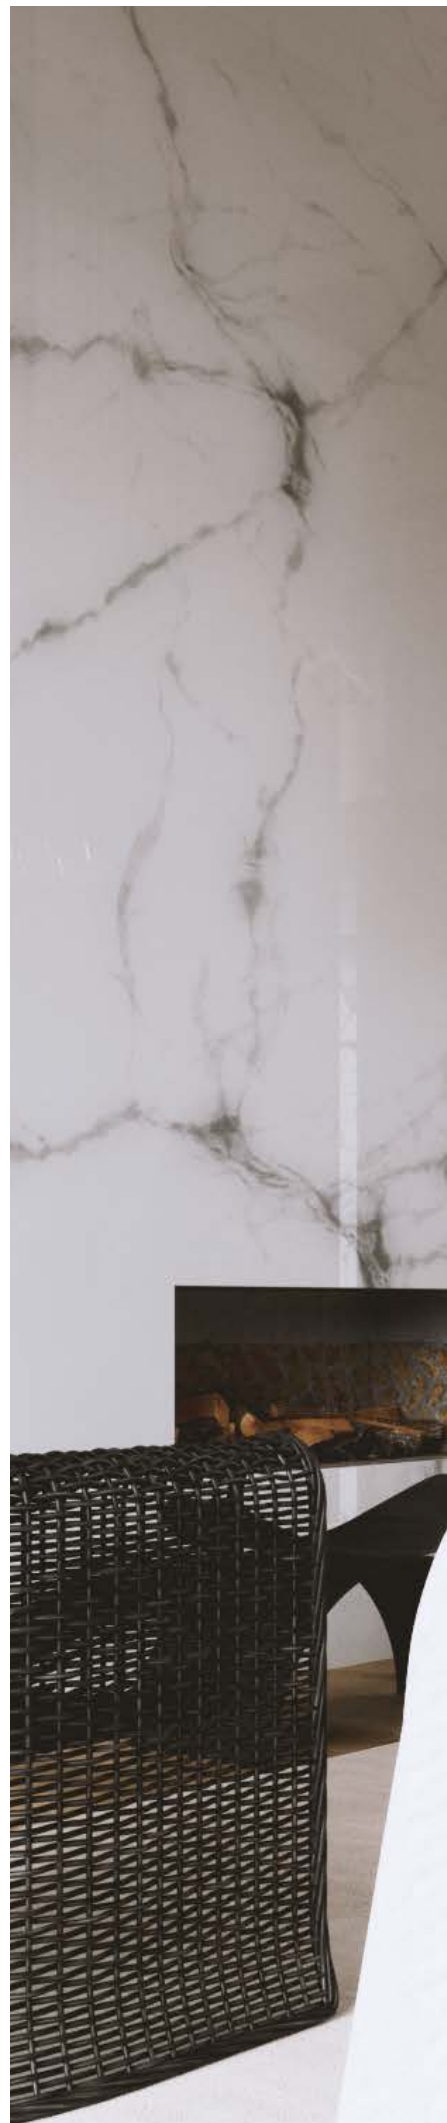

PIRUE

Smooth

The essence of modern elegance, which perfectly harmonizes with minimalist interiors and façade designs. A smooth, uniform surface without unnecessary ornamentation emphasizes the highest quality of workmanship.

PIRUE | P001

PIRUE

Contour

Subtle milled lines create harmonious geometric patterns that add to the door's unique character. Exceptional precision of workmanship highlights its aesthetic qualities and elegance, providing a discreet but striking accent.

The unique structure blends perfectly into both modern and classic façades. The matte finish in elegant, subdued colours provides the perfect background for the louvres, which create a three-dimensional effect and give the door its distinctive character.

PIRUE

Glass

Vertical glazing, accentuated with subtle milled lines, gives the door lightness and allows light to penetrate freely into the interior. It is an extremely functional solution, which at the same time provides privacy.
